EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Yim (Reg No. L0222) on 12/8/2005.

The application has been amended as follows:

In claim 1, line 16, change "transistors" to -transistor--.

2. The following is an examiner's statement of reasons for allowance: the prior art references US 6,351,163 and 6,664,943 are cited to teach a LCD driver including a plurality of p-channel and n-channel mos transistors, a plurality of switches and a capacitor. However, none of the prior art references, alone or in combination, teaches or fairly suggests the limitation of "a first switch connected between the source of the third P-channel MOS transistor and the drain of the first N-channel MOS transistor; a second switch connected between the ground terminal and the drain of the first P-channel MOS transistor; a third switch connected between the power supply terminal and a drain of the third N-channel MOS transistor; a fourth switch connected between the input terminal and a source of the first N-channel MOS transistor; a fifth switch connected between the power supply terminal and a drain of the second N-channel MOS transistor; a sixth switch connected between the ground terminal and a drain of the second-P-channel MOS transistor; and a first capacitor connected between a control signal terminal and the drain of the first N-channel MOS transistor" as required in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
